

### *Amendments to the Claims*

The listing of claims will replace all prior versions, and listings of claims in the application.

1. (Currently Amended) A compound of the formula (I)

wherein

X represents halogen,

Y represents CH or N,

R<sup>1</sup> represents hydrogen, and

R<sup>2</sup> represents hydrogen or hydroxy, or

R<sup>1</sup> and R<sup>2</sup> together with the carbon atom to which they are attached form C=O.

2. (Currently Amended) A compound according to claim 1, wherein

X represents fluorine or chlorine,

Y represents CH or N,

R<sup>1</sup> represents hydrogen, and

R<sup>2</sup> represents hydrogen or hydroxy, or

R<sup>1</sup> and R<sup>2</sup> together with the carbon atom to which they are attached form C=O.

3. (Previously presented) A process for preparing a compound of the formula (I) according to claim 1,

wherein

X, Y,  $\text{R}^1$  and  $\text{R}^2$  are defined as in claim 1,

comprising,

a) reacting a compound of the formula (II)

wherein

X, Y,  $\text{R}^1$  and  $\text{R}^2$  have the same definition as aforementioned,

with difluoromethanesulfonyl chloride in the presence of an inert solvent, and optionally, in the presence of an acid binding agent,

or

b) when  $\text{R}^1$  and  $\text{R}^2$  together form  $\text{C=O}$  with the carbon atom to which they are attached:

reacting a compound of the formula (Ib)

wherein

X and Y have the same definition as aforementioned,  
with an oxidizing agent in the presence of an inert solvent, and optionally, in the  
presence of an acid catalyst,

or

c) when R<sup>1</sup> represents hydrogen, and R<sup>2</sup> represents hydroxy:  
reacting a compound of the formula (Ic)

wherein

X and Y have the same definition as aforementioned,  
with an alkali metal hydride complex compound or a borane complex  
in the presence of an inert solvent.

4. (Currently amended) A herbicidal composition comprising ~~at least one~~  
~~compound~~ one or more compounds of the formula (I) according to claim 1.

5. (Currently amended) A process for combating paddy field weeds, comprising, contacting a paddy field weed or its habitat with ~~at least one compound~~ one or more compounds of the formula (I) according to claim 1.

6. (Cancelled)

7. (Previously presented) A process for the preparation of a herbicidal composition, comprising, mixing a compound of the formula (I) according to claim 1 with one or more extenders or one or more surface active agents, or a combination of one or more extenders and one or more surface active agents.
